SUMMARY

I'm an individual with more than 13 years professional background, the last 3 of which actively in front end development. Currently I'm responsible for creating online marketing assets for the AAA computer game developer/publisher Feral Interactive Ltd. London. My goal is to create high quality, internal or consumer pieces giving the smoothest user experience using cutting edge technologies like AngularJS, SCSS, Gulp, and many more.

WORK EXPERIENCE

2013–date • Feral Interactive (AAA computer game developer for the Apple Macintosh) London, UK
Role: Graphic Designer for the web and print

• creating digital marketing assets for AAA computer games like Tomb Raider or F1 2013 and many more
• developing digital assets for the web, using HTML, CSS, and JS
• also responsible for consumer and corporate marketing pieces like DVD labels, sleeves or magazine adverts and banners
• optimising the work flow by implementing and testing the newest technologies in our working process like Gulp, SASS or Foundation
• also implementing and testing css frameworks for responsible, device independent design
• using JIRA, the issue and bug tracking system
• working in an agile software development environment

2005–2011 • Prime Rate Ltd. (Digital Press) Budapest, Hungary
Role: Senior creative artworker, Team leader

• designing brochures, flyers, booklets, business cards, corporate stationery
• image manipulation and retouching
• verified and fixed print ready PDF with Enfocus Pitstop
• competent in different varieties of pre-press processes
• kept verbal and written contact with customers and other printing companies, subcontractors
• pdf proofing, artwork management
• produced print ready files for in house digital (Xerox iGen3, iGen4, HP Indigo 5000, Xerox Nuvera, DC100...) and other offset printers
• personalization and variable data printing
• created dielines from scratch or from existing model for packaging products
• maintained excellent customer service

2004–2005 • Ziegler Print Ltd. (Offset Press) Keszthely, Hungary
Role: Middleweight artworker

• artworked brochures, flyers, booklets, business cards, corporate stationery
• image manipulation and retouching
• liaised with clients, suppliers and contractors
• booklet finishing: creasing, stapling, folding, hole punching, wire binding
